

## Berkeley Castle Covid 19 - Tenant Update

### # 12 - June 1, 2020

#### Return to Work: Berkeley Castle's essential services tenants.

Berkeley Castle has its fair share of tenants whose businesses are considered essential services. These companies have been working with minimal on site staff, and others virtually as best they can since mid March. A number of them will slowly start bringing people back commencing June 15. Each of these companies is implementing their own return to work procedures for within their office, and working with us on procedures for staff whilst in common areas. Its all "very fluid", and procedures are expected to change. In next weeks update, I will provide the details of "building procedures". There are a few procedures we already have in place, and some new ones that will take effect. Below is what I can already confirm

#### New Safety Procedures: Effective June 15, 2020

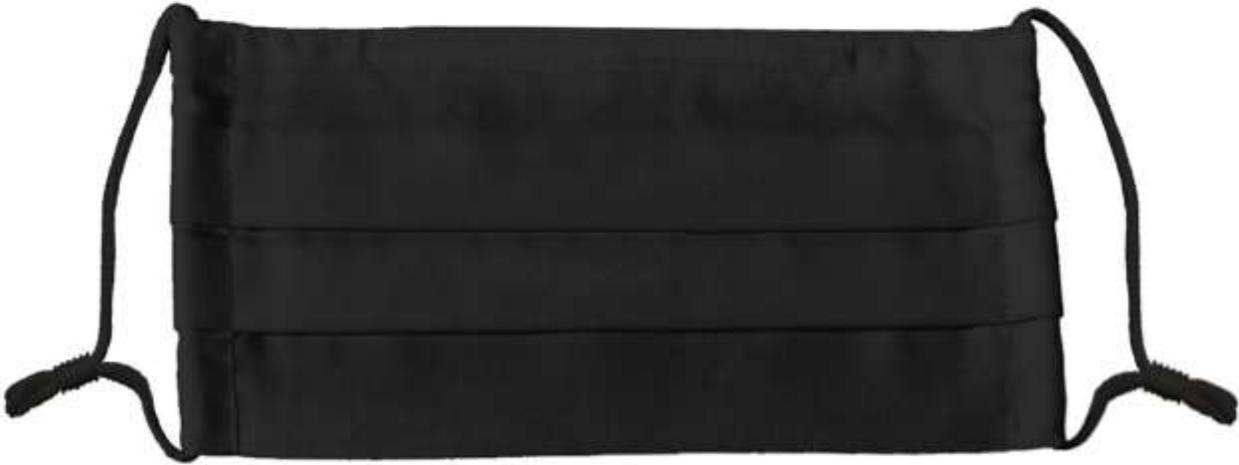

- Masks (NMM's) will be required to enter the building and must be worn in all common areas. **NEW**
- Everyone is required to wash their hands upon entering the building.
- Two people maximum per elevator.
- Washrooms will be single occupancy – we are currently installing "occupied/unoccupied" knobs in all the public washrooms. **NEW**
- Sign in the registry book at 2 Berkeley lobby, or MP garage lobby.

It goes without saying, that any person who thinks they may have symptoms of COVID-19 must remain at home and isolate for the mandatory period. People who consider themselves higher risk, should always take extra care.

#### Face masks: I protect you, you protect me.

##### **Update: I tried to make my own – aargh! – where can we easily buy some?**

Last week I talked about the importance of wearing a mask (properly), and provided a link to an easy "make your own mask". One of our tenants passed on a link for a Toronto company that makes washable NMM's. Berkeley Castle will be making a bulk order. If your company would like make their own bulk order here is the [LINK](#). If you only need a few, let me know in the next 2 days, and we can add to our order. We also will make some available on a one-off basis (\$5 each all in, with& \$1.50 to daily bread food bank).

**MACHINE WASHABLE**

**MEDICAL GRADE NOSE PIECE**

**ADJUSTABLE EAR LOOPS**

### Some good news:

**From the Toronto Star Monday June 1, 2020** Your Monday just got a little cuter:

The Toronto Zoo and the Toronto Star are celebrating the birth of #BabyLongLegs, the new Masai giraffe calf, with a [LiveStream](#)

Born May 12 as part of the AZA Masai giraffe Species Survival Plan, a cooperative breeding program among accredited zoos, the Toronto Zoo says her birth is an “important contribution to the genetically healthy Masai giraffe population.” Named Baby Long Legs and notably curious, the calf has spent her first three weeks learning to use her legs and getting her bearings in her new surroundings. With the Toronto Star live cam, you can get an exclusive look inside her indoor habitat. Giraffe lovers can watch the calf as she explores her habitat, learns new things and spends quality time with her mom, Mstari.

The livestream starts Monday, June 1 and continues all week. Read more at: <http://www.torontozoo.com/animals/Masai%20giraffe>

### **OCERA:** May 28, 2020 Update

A number of you have contacted me with questions regarding CECRA and the qualification criteria / measures.
