

Berkeley Castle Covid 19 - Tenant Update

17 - July 5, 2020: Masks

Masks now required in all public areas in Toronto.

I am proud that Berkeley Castle took the initiative to make masks mandatory over 3 weeks ago. We are doing our best to keep people safe who need to come to work and are happy that the City has now also made it mandatory. I sat at the front security desk all day Thursday and Friday and am very happy to say that Tenants have been doing a great job. It was a bit of struggle with couriers, and I had to deny access to some of them (Yes, I accepted all packages). Now all visitors will also have to wear masks, and those problems will disappear. We still need to improve on handwashing when you enter the building. **When you come into the building, please sign in, then go straight to wash your hands, before you go up to your suite....You can even use your paper towel to push the elevator button.**

Stairwell "UP" stairwell "DOWN"

I realize that there are not very many people in the building, and the chance of running into someone in the stairwell, or on the elevators is slim. However, when stage 3 arrives, (which will be soon if Toronto's number keep going down) all companies will be allowed to return, and there will be more people in the complex. So, to those of you who are here - get in the habit of using the correct stairwell. I know its not easy, because I have even caught myself going the wrong way....

Heat Wave

Its going to be a scorcher all week. As you all know by now, we are taking as many measures as reasonably possible to save you money on the buildings common area costs. A reminder that we are keeping the air conditioning off in unoccupied areas. If you come in this week, and find your offices hot, please contact management right away, we'll put the cold air on for you. I'm encouraging Shorts and sandals in the workplace for the next few weeks.
