

Berkeley Castle Covid 19 - Tenant Update

67 - June 28, 2021

By July 1, over 40% of all Ontarians over the age of 12 will have had both doses of their vaccine, and almost 80% will have had one. We are well on our way!

What to do if you or a friend got their first dose outside of Ontario.

Before they can get a second dose, they need to submit their first dose to the province to register it. Send them this link:

Rapid screening kits made available to help small & medium sized businesses re-open

I am encouraging all our tenants to read this [announcement](#) to educate and inform themselves about this program. Free [screening kits](#) are readily available. As I am neither a lawyer, nor a human resources specialist, I don't know if Berkeley Castle (as building managers) has a legal right to require this from every person who enters the building. In the least, we have a moral obligation to do our best to protect the people coming into the building to work. In the next while, as more people return to work, we will have more answers, and will be implementing any appropriate new policies. As employees and business owners your obligations and rights may be different from ours. This appears to be a great program that will help keep you and your colleagues safer as they come to work each day.

We really are getting a subway station (Corktown) where the Staples is:

Further announcements were made this week about the new "Ontario Line". You can read about all the new subway stations in the article below. [Ontario Line Update](#)

On Thursday it is July 1, and we call it Canada Day. This year, it will be a Canada Day unlike any others I have experienced in my life. Here are a few articles you can read or watch to help you better understand what you can think about and do on this July 1, 2021.
