

Berkeley Castle Covid 19 - Tenant Update #48 - February 15, 2021

End of the Stay-at-home shutdown, and new variants:

A pitfall of living in a wonderful urban setting such as Toronto, unfortunately means, we have one more week of stay at home. Other more rural areas are starting to open up tomorrow, and a week today, things will start to open up in the GTA, and we will be welcoming some of you back to the office. With the new variants starting to take hold, it has been identified that its not a matter of if, but when, the [new variants](#) will be come the dominant strain. If everyone takes added precautions, hopefully we can prevent a third and possibly worse wave. A few things you can remember to do are:

- Stay at home when you can
- Double up your [mask](#)
- Wear a face shield
- Limit on-site shopping
- Socially distance - especially at work - keep you mask on whenever possible.

Remember: “February - A Love Story”

This week you can download, and watch the play that was filmed in The Courtyard. Download at: www.februarytheplay.com.

Happy Family Day, Stay Safe,
